Tre Patent Application of Antonio J. Grillo-Lopez et al.	Examiner: Quang Nguyen
Serial No.	Docket No.:
09/613,038	22338-602
Filed:	Group Art Unit:
July 10, 2000	1636
For: BLOCKING IMMUNE RESPO	ONSE TO A GRAFT (Amended)

Box Patent Application Hon. Commissioner of Patents and Trademarks Washington, D.C. 20231

SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

Sir:

*

Listed on the accompanying Form PTO-1449 are documents that may be considered material to the examination of this application, in compliance with the duty of disclosure requirements of 37 C.F.R. §§ 1.56, 1.97 and 1.98.

Applicants reserve the right to establish the patentability of the claimed invention over any of the information provided herewith, and/or to prove that this information may not be prior art, and/or to prove that this information may not be enabling for the teachings purportedly offered.

This statement should not be construed as a representation that an exhaustive search has been made, or that there does not exist information more material to the examination of the present patent application. The Examiner is specifically requested not to rely solely on the material submitted herewith. It is further understood that the Examiner will review art of record in all 35 U.S.C. § 120 priority documents.

- 1. The Information Disclosure Statement is being filed more than three months after the U.S. filing date AND after the mailing date of an Office Action.
- a) Attached is our check in the amount of \$180.00 in payment of the fee under 37 C.F.R. § 1.17(p).

U.S. Patent Application No. 09/613,038

It is respectfully requested that the Examiner initial and return a copy of the enclosed PTO-1449 documents, and to indicate in the official file wrapper of this patent application that these documents have been considered.

Respectfully submitted,

Sharon E. Stroup Reg. No. 32,056

Re:

U.S. Patent Application No. 09/613,038

For: TREATMENT OF AUTOIMMUNIE DISEASES

Docket No.: 22338-602

Dear Examiner Nguyen:

Pursuant to your request in the Office Action dated March 3, 2003, attached please find the missing references cited in the above-identified patent application and a copy of the PTO-1449 to which the missing references pertain.

Please do not hesitate to contact me if you should have any further questions regarding this matter.

Very truly yours,

Jeffrey P. Kushan
